

Zebra Enterprise Solutions Fact Sheet

What is Zebra Enterprise Solutions?

Zebra Enterprise Solutions, a division of Zebra Technologies Corporation (NASDAQ: ZBRA), offers world-class solutions to optimize the flow of goods and manage assets across the global supply chain. Whether tracking containers through a port, optimizing parts for manufacturing or managing ground support equipment at an airport; the automated solutions from the combination of Navis-proveo-WhereNet-Multispectral Solutions provide complete visibility and greater velocity to deliver measurable business improvement. Customers benefit by increasing productivity, lowering costs, and strengthening safety and security.

In addition, Zebra Enterprise Solutions uses UWB, RFID, GPS, and emerging wireless technologies to provide proven, end-to-end solutions for dynamic environments.

Zebra Enterprise Solutions Focus

Zebra Enterprise Solutions is focused on delivering integrated solutions for complex, high-value, "enterprise" challenges. We employ sophisticated technologies (hardware, software, and services) to locate, track, manage and optimize high-value assets-cargo, equipment, and people.

Company Profiles

- Software solutions for marine terminals and other intermodal facilities
- Uses data from barcodes, RFID, RTLS, and GPS

- Software solutions for process optimization of airport ground handlers, airport operators and airlines
- Uses GPS, GPRS, Wlan and other technologies

- Pioneer in active RFID systems for manufacturing extending Zebra's reach beyond passive RFID
- Industry solutions for automotive, industrial manufacturing, marine terminals, aerospace and defense

- Industry leader in Ultra Wideband (UWB), an emerging wireless technology for communications, precision localization, RFID and radar applications
- Government, military, and commercial solutions

Zebra Enterprise Solutions At-A-Glance

- 500+ employees
- Strong management teams
- Deep domain expertise
- 24/7 global presence
- Customers in more than 50 countries
- Delivering high and measurable ROI
